

Pipeline of Information Programme

Professional development opportunities for teachers and career advisors
Building links between education and the energy sector
November 2017

Further supported by

Our revised 'Teach the Teachers' initiative now operates throughout November by taking teachers into the energy industry and offering interactive engagement opportunities with key employers.

The OPITO Pipeline of Information Programme 2017, in partnership with Beacon East, provides core 'influencers' in local schools and colleges the opportunity to learn more about the range of careers and routes into the energy sector.

If you are keen to support and encourage the next generation to follow their passion, then these events are for you.

Places are limited, book now using the Authorisation Form provided, deadline for applications
31st October 2017

Pipeline Launch Event – Wednesday 1st November, 09.00 - 14.30

Perenco UK –

Perenco UK is an independent global Oil & Gas Exploration & Production company which was founded in 1975 and is still family owned. Operating out of Bacton Gas Terminal on the north Norfolk coast, Perenco's assets make it the largest operator in the southern North Sea. Perenco has worldwide onshore and offshore operations including those in North and West Africa, Peru and Venezuela, Australia and Brazil.

Seajacks UK –

Seajacks is an owner and operator of self-propelled jack-up vessels. The four vessels, Hydra, Zaratan, Leviathan and Kraken can work offshore in either renewable energy or the oil and gas industry. The unique feature of Seajacks vessels is that they have four legs which they use to raise out of the water to provide a stable platform to build from or carry out maintenance. Unlike most other jack up rigs, these vessels can move without a tow or a tug.

Pharos Marine Automatic Power Ltd –

Pharos Marine designs and engineers marine navigational aids, and has provided products for some of the most famous navigation projects around the world, including the first oil rigs off the coast of Texas and the first buoys for the Panama Canal. Today PMAPI operates worldwide from offices in the United States, United Kingdom, and Singapore.

Nexus Engineering Training Centre –

Nexus is a purpose-built engineering training centre fitted with specialist industry-standard equipment available for business hire and school and college use. Working hand-in-hand with the sector, Nexus trains the next generation of engineers and raises the profile of engineering.

Outline of Visit –

Hosted by Nexus Engineering Training Centre, our packed launch programme will include senior industry speakers from Perenco and Seajacks UK, a guided tour of the Nexus premises and an adjacent site visit to Pharos Marine at their new Beacon Park facility with contributions from key personnel, graduates and apprentices who have developed in the company via the local training bodies route.

Pipeline Event – Wednesday 8th November, 09.00 - 13.00

NHV Helicopters –

NHV is a Helicopter Transport Company, operating under strict European regulations. Performing all kinds of helicopter work such as Offshore Passenger Transport, Hoisting, Ship Pilot Service and Search and Rescue (SAR). Operating throughout Europe and Africa, with UK bases at Norwich and Aberdeen Airports, NHV commenced operating in 1997 and has served the offshore industry since 2004 and is a full member of Oil & Gas UK and EEEGR.

Outline of visit:

Your visit will include a presentation and tour of the NHV facility, following the offshore passenger process and then a chance to meet and talk with helicopter Pilots and Engineers working within NHV.

Pipeline Event – Wednesday 15th November, 09.00 - 13.00

Petans Limited - Professional Safety Training –

For over 40 years Petans has been the benchmark for professional safety and survival training offshore UK and worldwide. They continue that ethos today. Petans provides offshore OPITO accredited training from the base in the South Eastern UK and increasingly is accrediting courses and training for the wider energy based market.

Outline of visit:

Petans has industry leading facilities. Your visit may include live exposure to and demonstration of equipment used for hot firefighting training, a helicopter flight simulator and a 10m survival tank complete with life rafts, full safety equipment, hoists and helicopter underwater escape trainer.

Please note all those attending will need to wear sensible flat footwear and clothing suitable for being outdoors for most of the time

Pipeline Event - Wednesday 22nd November, 09.00 - 13.00

Proserv UK -

Proserv is an international energy services company specialising in the provision of life-of-field solutions to the global oil and gas industry. Their business divisions include drilling control system, production equipment systems, subsea systems and services.

Headquartered in Aberdeen, the company employ over 2,200 people based in 11 countries. With a track record spanning over 40 years, Proserv specialise in a broad range of services for the entire oilfield lifecycle. The company structure includes; drilling, production, subsea and marine.

Outline of visit:

Your visit will include a presentation and tour of Proserv, discussions with selected on-site staff each identifying their own career profiles, a demonstration of their engineering department and simulation of subsea equipment.

About our Partners:

OPITO:

OPITO, the skills organisation for the oil and gas industry, deliver a range of targeted initiatives to ensure that there is a continual supply of skilled workers within the energy sector. From apprenticeships to educational events, including Energise Your Future, OPITO provide a range of opportunities to those looking for oil and gas career information. OPITO offer work experience programmes to school students which provide a unique opportunity to visit and engage with a host of companies and organisations within the energy sector. For further information visit www.opito.com & www.MyOilandGasCareer.com

Beacon East:

Beacon East is an Education Business Partnership Organisation (EBPO) working across the East Region. The company's mission is to develop meaningful relationships between education and business and industry. This is achieved through a wide range of exciting activities; including **OPITO** student world of work experiences, teacher CPD and Careers and IAG services.

Beacon East was recently awarded the Matrix standard for information, advice and guidance services and also delivers the National Careers Service 'Careers Inspiration' contract for the New Anglia LEP area. Latest government guidance clearly outlines the importance of industry links in schools and 'Careers Inspiration' for students. Beacon East is helping enhance careers provision in schools and colleges through the brokerage of inspirational employer support, including the oil and gas industry. For further information visit www.beacon-east.co.uk.
